

**lillo clip***the plastic clip*

ita system

**PECULIARITIES****Plastic clip for inviolable fastening of “plastic bag” with no liquid leakage****INVIOABILITY**It's guaranteed by ultrasound welding of vary materials:  
- Bags of different plastic kind, included rotisserie bags  
- Plastic netting**METALDECTOR**Lilloclip is made by plastic, therefore **not detected by metaldetector****TRACEABILITY INFORMATION**

It's possibile to write, during the sealing-clipping, all information about traceability, production date, expiring date, lot included

**FLEXIBILITY OF THIS SYSTEM**The information management (production date, expiry date, lot) is made easily through the rotating rubber stamp which makes **an immediate information change**.  
The same tag can be used for more products because is possible to print the sanitary number during the sealing, making easy even the warehouse management.  
Lilloclip is available in different colours to control the different working shifts, e.g.**COLOURS**Lilloclip is available in the following colours:  
white – yellow – green – blue

&amp;

Lilloclip can be preprinted with Company's logo  
Lilloclip is supplied in cartridges previously welded therefore there are **no lefts over**, also during the production change.**PLASTIC**Lilloclip's plastic is EC and FDA approved.  
Lilloclip is available in special plastic which sustain temperatures up to 250 C or 430 F**Fresh chicken****Frozen chicken**

European and U.S. patented system
